Leadership Vision

“What I hope for the Lutheran Church - Missouri Synod in the future is that we would employ our solid, biblically-based theology that the world desperately needs. It is imperative that we continue to develop relationships with orthodox Lutheran church bodies around the world, as well as touch our culture with the life-giving truths of Scripture. We are called to follow Jesus, who in His earthly journey shared His truths in a most relevant way, meeting people where they were, but never sacrificing the integrity of His Word. We must support, encourage, and train our congregations and church workers to minister to the context into which the Lord has placed before us.”
